**Guidelines**

Sub : preparation of banners / advertisement.

Dear shri,

On the above cited subject I am inspired to invite your kind attention that in case of any kind of events or seminars or any gathering which is bannered, should be prepared in Gujarati preferably. The banner or any materials which is proposed to get printed should have a uniformity by placing our logo with the name of lodge at the bottom & the subject of the event should be on middle or top of the banner. The colour combination should be blue background & white letters. You may mention venue, date & Time.

No way the name of any individuals should be mentioned except the chief guest of the function in banner or any other materials. We should well understood that the name of relevant organiser-lodge or federation is self-identification.
